

ALCiE® Log Broker Suite Software

With Automated Revenue Re-distribution and Expense Recovery

ALCiE Log Broker Software Suite is ideal for companies in the forest & logging industry that specialize in selling logs, and other wood products, on behalf of their suppliers. Featuring automated revenue re-distribution and expense recovery, this solution eliminates labor-intensive data entry. This automation reduces errors and streamlines log sales/purchases, charge-backs, and project allocations.

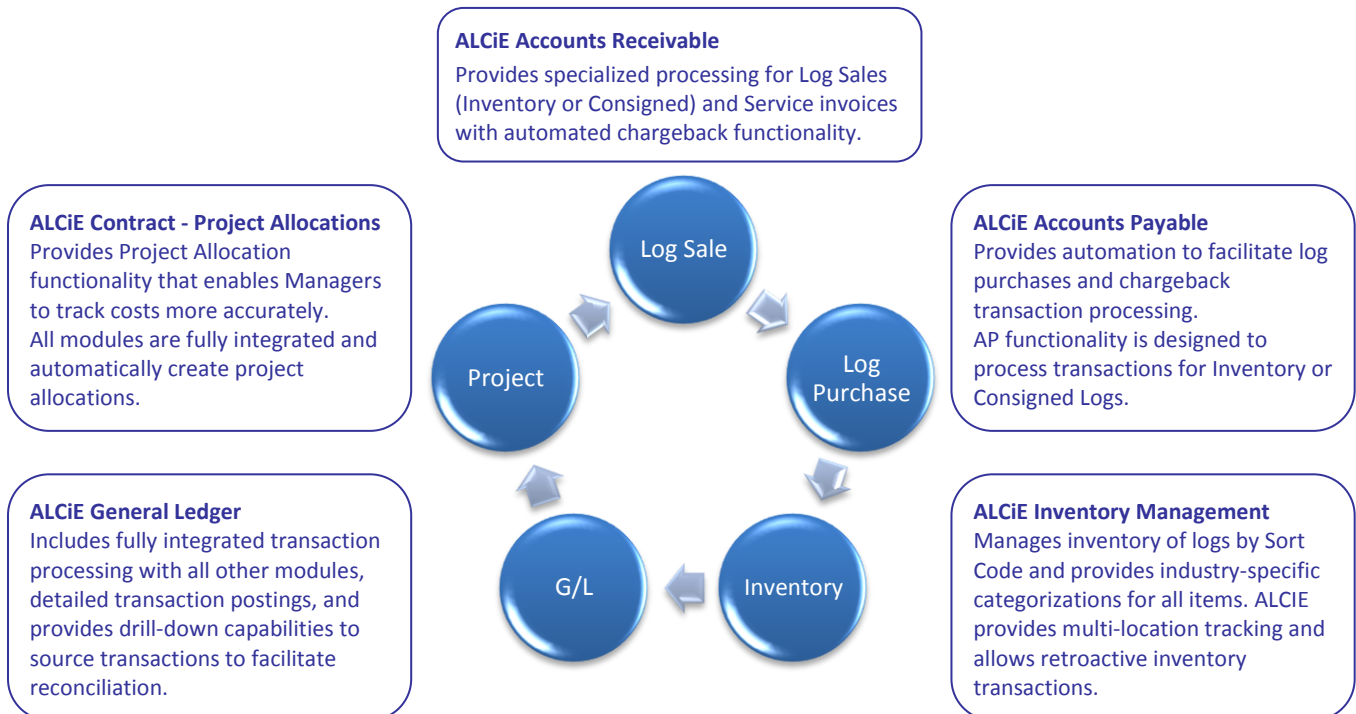

“ALCiE not only eliminated about 80% of the data entry, it also greatly reduced processing time while increasing accuracy. This has improved productivity, allowing us to take on more projects and expand our operations.”

L. Gordon, Accountant/Office Manager, Storey Creek Trading Ltd.

Top 3 Reasons to use ALCiE Log Broker Software Suite

- Efficiency:** ALCiE solutions provide Log Brokers with the ability to streamline operations and cut turnover time for document processing and other accounting functions. Optional integration with 3LOG’s LIMS software enables seamless data transfer and provides automated generation of transactions in ALCiE.
- Cost-savings:** Using the built-in automated functionality, ALCiE solutions enable businesses to be highly efficient and help minimize labor costs.
- Best-fit:** ALCiE software is optimally configured to cater to your operational needs.
